Dear Clayton Resident/Business/Property Owner,

The City of Clayton is currently working to finalize the concept design for the Maryland Ave. Resurfacing Project. The original project called for shared lanes markings and signage in the roadway for bicycles. During the two project open houses that were held, and through Board of Alderman meeting discussion, it was decided to explore options of placing dedicated bicycle facilities along the route (Hanley to Gay).

Given the limited space available in the right of way, and depending on the configuration of the bicycle facilities, driving lanes and select parking spaces (depending on selected option) may need to be removed to make room for a dedicated bicycle facility (something other than shared lane markings).

The design and traffic analysis are wrapping up now and this information will be presented to the Board of Alderman on August 14th at 6pm (prior to regular board meeting). Attached are exhibits which show the existing conditions and the options being considered in each section of the project.

We would like to invite you to attend an informal question and answer session from 5-6pm on 8/14 (prior to the Board of Alderman meeting) to show you these options and answer any questions you might have. In the event you unable to attend the open house on 8/14 and would like to submit comments, please send them to Matt Malick (info below). Also, please see the link below for exhibits and additional information.

**Q&A - Maryland Ave. Bike Facility Options
August 14, 2018, 5-6PM
City Hall Council Chamber (2nd Floor)**

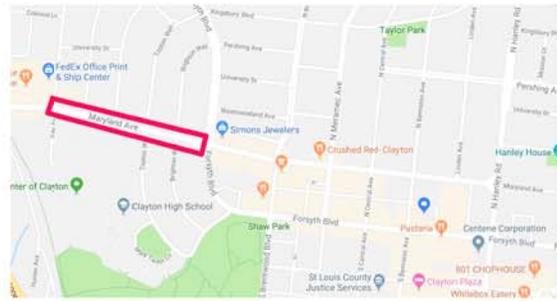

Throughout the project the City website will be the primary source of up to date information regarding the project. Information presented at the BOA meeting will also be at the link below...
