

Center of Clayton Renovation

The first phase of renovation will begin at The Center of Clayton in May of this year. Planned renovations will address several key mechanical systems that are at the end of their useful life as well as bring enhancements and updates throughout the building. Foremost, this renovation will include an expansion of the northwest corner of the building (near the current Youth Activity Center), reorganization of fitness and lobby spaces, and pool resurfacing among other enhancements. The project will be completed in phases beginning in May and ending in Spring 2020, and every effort will be made to limit the impact to our members during the process. Funding for this project is provided by City of Clayton and School District of Clayton.
