SHAW PARK INCLUSION PLAYGROUND

Location: Shaw Park

This nature-themed jungle gym was constructed to go beyond the ADA expectations of accessibility, and the design was largely driven by the input of community members. Officially named the Shaw Park Tree Top Playground, the playground features a custom tree house design. All of the equipment was designed to be accessible for children of all abilities. Features include accessible swings, ramping to even the tallest slides, and specialized activity areas. Funding for the project was provided by the City of Clayton, Clayton Century Foundation, Clayton-Ladue Rotary Club, Missouri Department of Natural Resources and the Saint Louis Municipal Parks Grant Commission. The project was completed in 2010.
